Presentation Template

01 Usage and Explanations

Get a jump start with templates

We used [Google Theme builder](#) to create template slides to keep ARES branding consistent. Use templates to help your presentations look sharp and professional. You can change the background, theme, layout, and more for all your slides.

What's here?

In this template document, you will find three sections:

- 1) [Design guidelines](#)
- 2) [Template slides](#)
- 3) [Appendix: Iconography](#)

Some things to watch for...

- In the speaker notes you'll find tips to help you make your presentation. Please delete the speaker notes once you're finished.
 - To **remove speaker notes** from the beginning, go to File > Make a Copy > Entire Deck and check "Remove all speaker notes"
- Delete all slides unnecessary for your presentation, including those in this first section.

ares

AR Enterprise Services

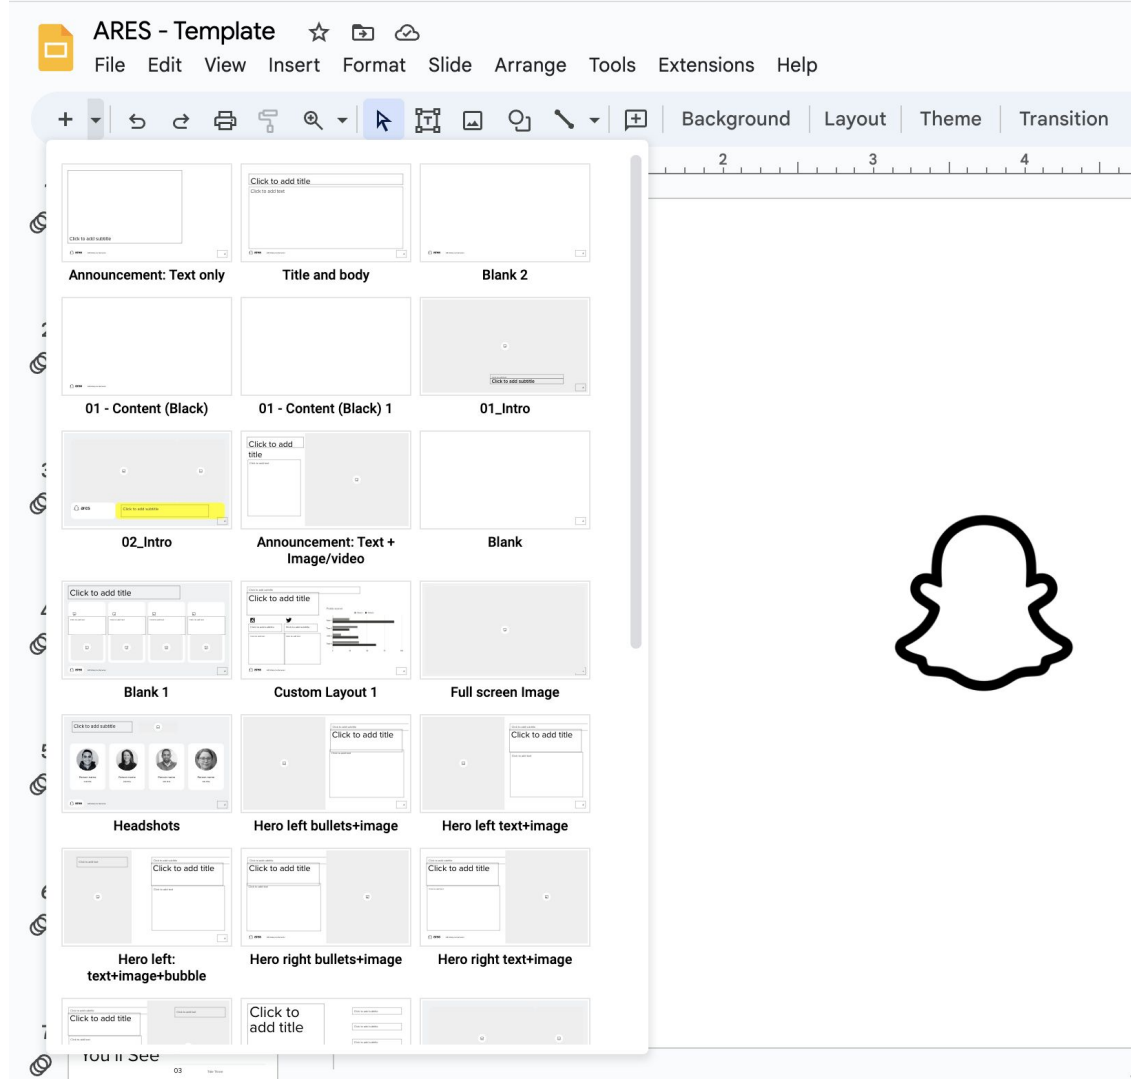

Selecting page types

You can make copies and edit slides from the navigation list to your left.

You can also click the dropdown plus icon (+) in the menu bar located below 'file' in the main menu. From there, choose your desired slide template.

AR Enterprise Services

Font type - Proxima Nova

Proxima Nova is your primary display and body font to be used within Google tools (Docs, Slides, etc.). Use it for headings, paragraphs, links, emphasis text, and more. Read the speaker notes for more tips.

Branded copy

Approved ARES narrative and product-related copy is available from the respective teams responsible for the content. For support or copy-editing requests, please reach out to ARES marketing ([#ares-marketing](#)).

ares

AR Enterprise Services

Imagery

You are welcome to use the placeholder photography as seen in the template. You can also browse our approved **image library** to give your presentation a personal flare.

Here's the process:

Go to the IMAGE LIBRARY folder > Select and download the desired image onto your computer > In your presentation, right click and replace image (this ensures the style parameters are maintained)

If you have other image needs or design questions, reach out marketing through the #ares-brand-design channel on Slack.

Only brand approved images are allowed. Do not use images from non-approved sources.

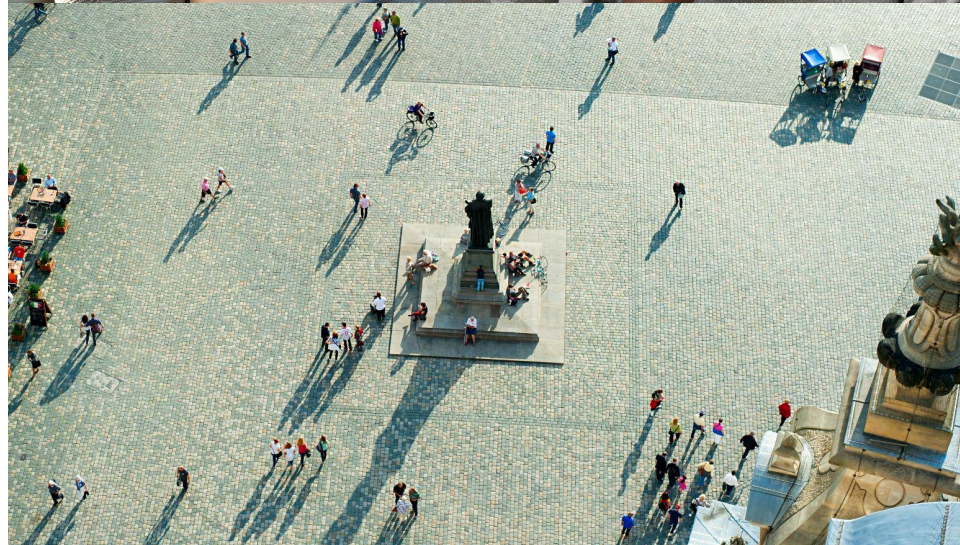

ares

AR Enterprise Services

The right look for images

- Images should be styled similarly to what you see here in the presentation
- We use two primary styles:
 - Micro | Close up, representing the human experience
 - Macro | Taken from above, representing shared experience
- Go natural. No special effects applied (ie: high saturation, high contrast, etc.)

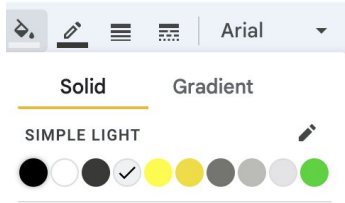

ares

AR Enterprise Services

Colors

Color values +
approximate usage
(see speaker notes)

	Black RGB CMYK #000000	White RGB CMYK #FFFFFF	Yellow 02 RGB CMYK #F3DB00	Snap Yellow RGB CMYK #FFFC00
Gray 01 RGB CMYK #333333	Gray 02 RGB CMYK #737373	Gray 03 RGB CMYK #BBBBBB	Gray 04 RGB CMYK #E6E6E6	Gray 05 RGB CMYK #F2F2F2

The rounded rectangle

Take a look at some examples of how you can use the rounded rectangle.

AR Enterprise Services

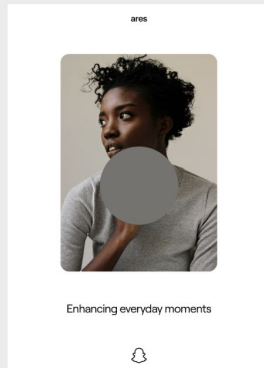

The circle

1. Do not apply the circle (dot) in any colors other than our Snap yellow
2. Use the dot as an anchor to highlight an idea written in text
3. Use the dot within infographics to highlight key messages
4. Use the yellow dot separate words within lists

Design review

Once you're finished with your presentation, design will review it for brand coherence. However, we encourage you to do as much leg work as possible using the guidelines and resources provided to make sure your presentation is on brand.

Ideally, our design team will only have to make small adjustments.
